COMPUTER SCIENCE AND ENGINEERING DEPARTMENT

Dr. Soumyajit Dey

Assistant Professor

To Whom it May Concern

Mr. Nilava Kar, an Mtech (ongoing) student of the Department of Computer Science and Engineering at Techno India University, Kolkata, has undergone a summer internship with my research group during 13th May to 30th June 2019. The title of his project work was "Efficient GPGPU implementation of CNN pipelines for Pedestrian Detection".

During this internship period he has performed all tasks assigned to him up to my satisfaction. His project work clearly illustrated his industrious and tenacious nature. Another great quality about Nilava that I observed was his deep insight and his capacity to view a problem from different perspectives. I noticed this on quite a few occasions while having project related discussions. I wish him good luck in his career and highly recommend him for good system level implementation work in Computer Science.

Yours sincerely,

Soumyajit Dey
